### SILK SCREEN IMPRINTING

This process employs a photographic method that the logo into a fabric mesh. The colors are then applied to the surface of the product through the mesh. Additional colors can be applied using a separate mesh that requires another Set-Up charge. Some products have irregular shape, and thus cannot be screened with logos that have very tight registration.

### DEBOSSING / HOT STAMP

This process can be applied to most leatherette materials. Products such as organizers, portfolio, passport holder or Business card holder etc. Please check with factory first for availability and please be advised that the Die and Run charge are relatively higher than other available imprinting methods. A Set-Up charge will be added with a Die making charge. No repeat Die charge will be applied for re-orders, only a Repeat Set-Up fee.
